Wow time flies, it seems like just yesterday we were getting things put together for the first sale back here at the home place! This is the 16th year we've hosted our Annual Production Sale at the farm. We so appreciate our long-time customers and always enjoy getting to know our new customers, friends and their operations. This year's offering is smaller than usual - with the drought conditions we sharpened the knife to a razors edge.

The offering this spring is loaded with a great set of calving ease, maternal and performance bulls and replacement females. We have three coming 2-year olds and also some January calves that will be ready to cover a lot of females this breeding season. We are and have always been an operation fully involved in agriculture both crop farming and livestock, we are committed to producing cattle that will benefit your operation in this dry desert country that we all live and work in.

2022 brought some big challenges and along with them the need to find ways to keep the cowherd intact. We ended up dry lotting the majority of the pairs this past summer with most of the mother cows not seeing hardgrass until post weaning. The cattle performed well even with the dry, dusty conditions we were faced with.

The bulls have been on a high roughage ration since weaning consisting of silage, ground sudan grass, ground alfalfa and a small protein supplement. They have performed very well considering the cold, winter conditions they have been through.

Feel free to call either one of us with any questions about the offering. We are here to help you with your bull buying decisions.

Jon Flack will once again be calling our sale, he does a great job for us. He was just awarded second runner up in the annual Colorado Auctioneers Association annual meeting.

As always, we stand behind these cattle and want them to go out and do a great job for you our valued friends and customers!

Regards, Steve and Gail

SEGA GELBVIEH AND BALANCER

Production Sale

March 4th, 2023

Viewing starts at 10:30 a.m.

Lunch at High Noon

- **Health:** The cattle have had all their vaccinations and will be semen tested and available for interstate shipment within the U.S.

- **Terms:** Cash or cashable check on sale day unless other arrangements have been made with us.

- **Delivery:** We will deliver your purchases at no cost to you within 250 miles. We will keep the bulls until April 1st, at no charge. Feed cost after April 1st will be \$2.50/per day. We will deliver the bulls to you at an agreed upon time. The bulls will be cared for as if they were ours, but we cannot guarantee against sickness, injury, or death.

- **Transfers:** Cattle with registration papers will be transferred to the new owner.

- **Guarantee:** All bulls in the sale are guaranteed to be breeders if not allowed to run with the herd until at least 14 months of age, and if not subjected to gross negligence by the purchaser.

- **Liability:** You attend the sale at your own risk and we will not be responsible for any accidents or injuries that might occur.

Directions to the Farm:

- From Ault, Colorado: 2 miles north on Highway 85, then 1/8 mile west on County Road 86. From Pierce, Colorado: 2 miles south on Highway 85 then 1/8 mile west on County Road 86.

In case of bad weather, please call ahead.

This red balancer from Tom Brink who we run a few cows for, is super correct. Tom bought his Contour dam as a pick lot in our female sale a few years back. She never fails to bring in a good one and is nursing another good bull calf this year.

Meat In Day 2022

HEIFERS

31-35

Group of five Black commercial heifer calves - right out of our replacement pen.

Notes:

Bull Selection Guide:

Use this guide to help you decide what type of bull may work best with your current cowherd makeup. An "X" marks our suggested bull type.

My Cowherd Makeup	Purebred or High Percentage Balancer	Mid-Range Balancer	Low Percentage Balancer
Mostly British-based (Angus, Red Angus, or Hereford)	X	X	
Equal blend of Continental and British Breeds	X	X	X
High percentage Continental (Gelbvieh, Limousin, Charolais, or Simmental)		X	X

Purebred Gelbvieh or High Percentage Balancer is 63% Gelbvieh or higher. These bulls will add muscle and red meat yield along with great maternal values.

Mid-Range Balancers are 38% to 63% Gelbvieh. Use these bulls to maintain feedlot performance and carcass value, without losing the maternal edge.

Low Percentage Balancer is 38% Gelbvieh or less. Use these bulls to add carcass value and calving ease.

Herd Health Program:

Birth	7-Way and Inforce
Branding	Bovishield Gold 5, 7-Way
Pre-Weaning	Bovishield Gold 5, One Shot
Weaning	Bovishield Gold-5, 7-Way with Somnus, Multimin 90
At Semen Test	BoviShield Gold VL5
Pre-Breeding	BoviShield Gold VL5
Parasites controlled with Ivermectin pour-on.	

Thanks

We owe a big THANKS to our consulting veterinarian Shawn Bott DVM for keeping the herd healthy. To Lori and Lyndsey Stevens for all their help putting the sale book together and for the wonderful video presentation.

Thank You for Coming!

Care of your yearling bulls:

We would encourage you to take a little extra special care of your investment(s). Yearling bulls are still growing and we all expect a lot out of them. Limit the breeding season and number of cows that they will have to service. Do not turn young bulls out in the same pasture with mature bulls. A yearling in good condition can be expected to service 15-25 cows in his first season, but he will need to be brought in early and given a little extra care after all that work. Yearlings will start losing their teeth at 15 to 18 months of age and need a little **TLC** if you expect them to grow and develop to their full potential. A little extra care up front will make your purchases last a lot longer and also make for healthier, better bulls down the trail!

When you first turn your bulls out, watch them and make sure that they are getting the job at hand done. Also, if they start getting a little run down rest them or give them a little extra energy, it will pay dividends in the long run!

The PAP Crew!

**Put a pencil to our bulls,
you'll like what you see!**
